Russian Takes Back Balance is Retained for Bartering In Co-operative Stores Only, Largest Industries Stay in Hands of State

RIGA, June 1.—The congress of the communist party closed its sessions at Moscow on Monday with a declaration of approval of the program expounded by Nikolai Lenin and his lieutenant, Milutinovich, minister of agriculture in the soviet regime, who is now the ruling spirit of economic questions.

The policy consists mainly in the following points:

First—Collection from the peasants of a fixed amount of grain by a system of tax in kind, estimated by Milutinovich to amount to about one-third of the crop. The other two-thirds of the crop is to remain at the disposal of the peasants for trading through the newly restored co-operatives, whose power is to be extended.

The second system of requisitioning which makes the peasant the agent and sometimes the intermediary of the government, permitted the peasant to keep only a small quantity of grain for his own consumption, while the state procured the rest.

Second—Retention in the hands of the state of the largest industries and means of transportation, particularly the railways, and the power stations. These latter are turning out machinery and other goods needed by the peasants. They are to be sold up in order to supply the peasants.

Third—Encouragement of small co-operatives in the country. The government is to be encouraged by a house system and by co-operative stores. The government is to be encouraged by a house system and by co-operative stores.

Fourth—Retention in the hands of the state of the largest industries and means of transportation, particularly the railways, and the power stations. These latter are turning out machinery and other goods needed by the peasants.

Fifth—Retention in the hands of the state of the largest industries and means of transportation, particularly the railways, and the power stations. These latter are turning out machinery and other goods needed by the peasants.

Sixth—Retention in the hands of the state of the largest industries and means of transportation, particularly the railways, and the power stations. These latter are turning out machinery and other goods needed by the peasants.

Seventh—Retention in the hands of the state of the largest industries and means of transportation, particularly the railways, and the power stations. These latter are turning out machinery and other goods needed by the peasants.

Eighth—Retention in the hands of the state of the largest industries and means of transportation, particularly the railways, and the power stations. These latter are turning out machinery and other goods needed by the peasants.

Ninth—Retention in the hands of the state of the largest industries and means of transportation, particularly the railways, and the power stations. These latter are turning out machinery and other goods needed by the peasants.

Tenth—Retention in the hands of the state of the largest industries and means of transportation, particularly the railways, and the power stations. These latter are turning out machinery and other goods needed by the peasants.

Eleventh—Retention in the hands of the state of the largest industries and means of transportation, particularly the railways, and the power stations. These latter are turning out machinery and other goods needed by the peasants.

Twelfth—Retention in the hands of the state of the largest industries and means of transportation, particularly the railways, and the power stations. These latter are turning out machinery and other goods needed by the peasants.

Thirteenth—Retention in the hands of the state of the largest industries and means of transportation, particularly the railways, and the power stations. These latter are turning out machinery and other goods needed by the peasants.

Fourteenth—Retention in the hands of the state of the largest industries and means of transportation, particularly the railways, and the power stations. These latter are turning out machinery and other goods needed by the peasants.

Fifteenth—Retention in the hands of the state of the largest industries and means of transportation, particularly the railways, and the power stations. These latter are turning out machinery and other goods needed by the peasants.

Sixteenth—Retention in the hands of the state of the largest industries and means of transportation, particularly the railways, and the power stations. These latter are turning out machinery and other goods needed by the peasants.

Seventeenth—Retention in the hands of the state of the largest industries and means of transportation, particularly the railways, and the power stations. These latter are turning out machinery and other goods needed by the peasants.

Eighteenth—Retention in the hands of the state of the largest industries and means of transportation, particularly the railways, and the power stations. These latter are turning out machinery and other goods needed by the peasants.

Nineteenth—Retention in the hands of the state of the largest industries and means of transportation, particularly the railways, and the power stations. These latter are turning out machinery and other goods needed by the peasants.

Twentieth—Retention in the hands of the state of the largest industries and means of transportation, particularly the railways, and the power stations. These latter are turning out machinery and other goods needed by the peasants.

Twenty-first—Retention in the hands of the state of the largest industries and means of transportation, particularly the railways, and the power stations. These latter are turning out machinery and other goods needed by the peasants.

Twenty-second—Retention in the hands of the state of the largest industries and means of transportation, particularly the railways, and the power stations. These latter are turning out machinery and other goods needed by the peasants.

Twenty-third—Retention in the hands of the state of the largest industries and means of transportation, particularly the railways, and the power stations. These latter are turning out machinery and other goods needed by the peasants.

Twenty-fourth—Retention in the hands of the state of the largest industries and means of transportation, particularly the railways, and the power stations. These latter are turning out machinery and other goods needed by the peasants.

NEW GAS SCHEME CONSIDERED AND TERMS STATED

Promoters State That Old Company Requires 35 per cent. of Price Paid for Gas

OFFER IS EXPLAINED

New Firm Wants Franchise Assigned and Price Fixed by Arbitration

"Our offer is practically this," said Mr. Freeman to the members of the committee when he and Ross Alger came before them to support the offer to take over the franchise for the gas supply of the city.

This statement was made after the committee had been informed that the old company, the Edmonton Gas Company, was offering to sell the franchise for the gas supply of the city.

AMERICAN RAILWAY WAGE REDUCTIONS WILL AFFECT CANADIAN EMPLOYEES

MONTREAL, June 1.—Wage settlements in the United States have always had effect on the pay of Canadian railway employees, "C. O. Riddell, secretary of the Railway Association of Canada, which represents the railroads in wage disputes, said today, in response to an inquiry as to whether or not the reductions in Canada introduced by the railways would be based on the reductions in the United States.

Mr. Riddell added that it was impossible to determine whether or not the wage reductions in Canada introduced by the railways would be based on the reductions in the United States.

Prairie Province Records Broken At Lacombe Bull Sale; Clive Man Paid \$1,100.00 For Crocus King

Animal Contributed by Alberta Department of Agriculture Topped List—Buyers Were Discriminating.

In spite of calamity which has befallen the province, Alberta found itself able to set a record for the sale of cattle at Lacombe on Monday.

The record was set by the sale of a bull named "Crocus King" for \$1,100.00 by Clive Man, a resident of Lacombe.

The bull was one of the best of the breed and was sold to a buyer from the United States.

The sale was held at the Lacombe stock market and was attended by a large number of buyers.

ARBITRATION IS PROPOSED IN MILL WORKERS STRIKE

Proposal is Now Under Consideration at Private Session Being Held at Albany

Albany, N.Y., June 1.—Consideration of a proposal of representatives of ten manufacturers to arbitrate the difference which has arisen between the month in a strike of approximately 45,000 paper mill workers in Canada, the United States and Newfoundland, was begun here yesterday by officials of the International Brotherhood of Papermakers and the International Brotherhood of Pulp, Sulphite and Paper Mill Workers, who are on strike from each of the plants affected. The meeting was private. It was believed that they would continue for several days.

The proposal of the manufacturers was that the strikers return to work

pending arbitration of the difference; that until the decision of the arbitrators was announced the men should receive 75 per cent of the wages they were paid prior to the strike, that any change in the wage rate should be effective as on the day on which the arbitrators would be given to the men as back pay on the pay day after announcement of the verdict.

The strike, which began May 1 in some mills and May 11, in others, was called in protest against a wage reduction of 20 per cent, and a nine-hour day. The men demanded an increase of 10 per cent, and the continuance of the eight-hour day.

Guerrilla Warfare

Between French and Turk Nationalists

Constantinople, June 2.—Guerrilla warfare between French and Turkish Nationalists troops have been reported to have been in progress in the city of Aleppo from the French, while Nationalist leaders are being arrested by the French authorities.

Henry Franklin Hamilton, former member of the French chamber of deputies, who has been in the city for some time, has been arrested by the French, and is being held in the Turkish government house because of the possibility that he might be a spy.

PRESBYTERIAN HOME MISSION WORK VARIED

Annual Report Submitted at General Assembly Shows Diversified Operations Carried On

Toronto, June 1.—(By Canadian Press.)—The Presbyterian Home Missions and Social Service of the United Kingdom, Canada and the United States, of the most important in that denomination in the home and abroad, is the report of the year's work, as presented to the General Assembly, now in session, at the church headquarters, 100 Dundas street west, Toronto. The report shows that the church maintains a thousand home mission centres in the Dominion, 200 being augmented churches where the local contributions are supplemented by grants from the church funds, and 400 other home mission centres. As marked on the map of the Dominion, these mission stations are found in every province, and extend to the extreme east of Cape Breton and the boundary line between Canada and Labrador in the far west. Western areas of the Peace River country, and the Yukon Territory, are strong believers in home mission work, and the need of it is shown by the fact that such as John Black, James Robertson and others, are leaving rich fields, a small army of home missionaries, 118 in number, have been recently appointed to extend their work for the coming season.

The church has a sympathetic attitude towards the new Canadian and American governments, and has been given special missions for their benefit. The church has a wide range of work, and is not only in the chief cities but in the remote communities both urban and rural in the west.

The office of Presbyterian service does not, however, cover all. The report shows that thirty-three churches, including school houses in Quebec and the western provinces, which provide home influence for the majority of foreign-born, who attend public or high school in the country. Specialty centres are the Ukrainian boys and girls who are being served.

The Presbyterian hospital work in one of its chief departments of Christian service, there being twelve hospital centres in which thousands of patients are actually treated. Most of these hospitals and the auxiliary nursing units are found in the outlying parts of the western country, long distances, in some cases from medical or hospital help. It is in this and similar work, the Women's Missionary Society under most effective service. The Presbyterian Social Service program is likewise an important and active one, including five Social Houses in Montreal, Toronto, Winnipeg and Vancouver, in which a range of activities is carried on for the benefit of hundreds of families, and thousands of members many of whom are of foreign birth.

There are also seven Redemptive Homes in various cities where the needy touch the lives of hundreds of needy girls with results that are most heartening. regard is also had to the immigrant through the Department of the Immigrant in which the Women's Missionary Society also operates. Nearly 25,000 industrial immigrants were ministered to through the Department of the Immigrant during 1920.

The Board of Home Missions and Social Service takes a keen interest in moral and social reform and annually presents, through the various departments, a series of lectures on temperance, morality and the relation between capital and labour. It works in these nations as well as distinctly religious, and its influence extends far beyond its denominational boundaries.

The Department of Evangelism also belongs to this board. Several campaigns were carried on in different parts of the Dominion, including a special series of meetings conducted by Dr. Campbell Morgan, and Dr. Robert Johnston.

Toronto will be Home Missions night at the General Assembly. It will be one of the great sessions of the Presbyterian parliament when stirring addresses will be given, based on the facts above reported and dealing with the larger implications and the ever-extending program of Home Missions and Social Service.

MANY PRINTERS IN TORONTO ARE OUT ON STRIKE

Toronto, June 1.—From 1,000 to 2,000 employees of printing houses here are on strike today, as reported. The men are asking for a 44-hour week with a minimum wage of \$4.40, while the employers, represented by the Toronto Typographical Union, offer of \$5 for a 44-hour week or \$11 for a 44-hour week.

Mr. J. W. Faller, of the Methodist Book room who has been appointed as chairman of the employer's defense committee, said the printing trade has been so fresh devastation overnight.

The employees are prepared for a protracted strike, having recently voted a 10 per cent weekly wage amendment on its members. It is expected that the Toronto strikers will receive \$17 a week strike pay for single men, or \$22 for married men. Comptrollers, greenmen and book binders are involved.

Deadlock Broken. Cleveland, Ohio, June 1.—The deadlock which has extended in the building trades industry here since May 1, when between 15,000 to 20,000 men went on strike, was broken early today, an agreement to arbitrate being reached by the joint consultation board of the building trades.

Hudson's Bay Company

employers' association and the building trades council. Building operations amounting to \$10,000,000, employers and union officials agreed, with the full swing under the agreement of May 1, 1918.

New York, June 1.—(Photo engraving.)

not affected. The wage agreement which expired last night, called for a minimum wage of \$65 for a 44-hour week for day workers and \$40 a week for night workers. The publishers committee offered to arbitrate the matter if it was not satisfactory, but union officials refused the offer and issued the strike order last night.

Ottawa, June 1.—Approximately 400 printers, compositors, bookbinders and apprentices are on strike here today for a 44 and 48 hour week. Twenty-five plants are affected.

- Deaths at a local institution... 5
- Deaths at a Nursing Home... 6
- Using milk from local cows... 7
- Using Patent Foods... 7
- Using E. C. D. Milk... 4

Total.....26

The four cases where E. C. D. milk was supplied were in turn carefully investigated, and it was found in each case that the milk had nothing to do with the cases of death.

After hearing the result of this investigation, the members of the Safety and Health Committee of the City Council decided that the milk supply was not responsible for the high infant mortality rate.

The Edmonton City Dairy also reported the result of the investigation to the executive committee of the Local Council of Women, and the E. C. D. was afterwards cordially thanked for bringing the facts to the notice of the committee.

The investigation is an eloquent tribute to the superlative merit of E. C. D. Milk, which is rich, safe, clean and sweet.

Be warned in time. Take no chances this summer with your children's health. Use only milk that is safe. Use E. C. D. milk.

CHARGE MURDER IS REDUCED TO MANSLAUGHTER

[illegible][illegible]

The defense, which was conducted by E. J. McCallister, closed its case 1:30 in the afternoon, and the court adjourned until tomorrow. Although addressed the jury, presiding judge Edward McCallister said he was not making a statement on the case. J. H. Cogswell argued the case for the crown.

The trial overflows filled the first room to capacity.

GAMES POSTPONED

The Eastern Canada tour was the 13th game played in the Western Canada tour presently. The 14th game of the scheduled game at Vancouver will be played on Monday, and the final game at Regina on Tuesday.

POWER COMPANY. WANT RETURN OF \$50,000 DEPOSIT

Edmonton Power Company Comes
to Life Again in Letter to
Mayor

ASKS FOR SETTLEMENT

No Suggestion Made of Carrying
Out Contract to Supply
Hydro Electricity

A resurrection has happened. The Edmonton Power Company, thought to be properly dead, having come to life again.

From a communication received by the mayor from E. W. Bowmen, it does not appear that the company is anxious to carry out the contract with the city to establish a hydro-electric, but rather that it is desirous of retaining possession of the guarantee of \$50,000 that had to be put up when the franchise was secured.

The point is raised that as the city appears to have decided to stay with the policy of municipal ownership and that it ignored the offer of the power company to operate the steam plant, it evidently desires to settle with the hydro company.

It is pointed out that the city has already made a settlement with the Alliance Company, and that the company was merely subsidiary to the Edmonton Power Company, the agreement with the latter having been ratified by plebiscite.

The company's letter to the municipality is as follows: "The Mayor, Douglas, and the City of Edmonton Power Company, Limited."

"We are writing to you in regard to the contract for the supply of electric power to your city. The necessary surveys and preliminary work were undertaken by us, and considerable expense incurred, amounting in all to over \$145,000, including payments of water due to the Dominion government. About the time when actual construction was to be started in 1915, the serious war conditions impelled the Dominion government to very properly veto all work of the nature of that to be undertaken. This was in force until after the armistice, and since then costs of labor and material greatly in excess of the original estimate have made the project impossible on the terms set out in the agreement."

"We believe that the circumstances are fully appreciated by the city, and that inasmuch as the existence of our agreement might stand in the way of the city's plans towards further power development, it might be wise to take up negotiations aiming at the release of both parties from the agreement and the repayment of the deposit of \$50,000 held by the city at the present time."

"We feel that there is little possibility of any decline in costs of labor and material in 1921, the year in which the contract was made, and we believe, therefore, that a termination of the agreement is in the interests of both parties concerned. As the city has been put at no loss through the action of the government in restraining us from proceeding with the project, while the company has on the other hand lost a large sum, some \$145,000, and the refund of the \$50,000 deposit with the city and the cancellation of the government contract will, we believe, meet with approval. With the conviction that you will take the matter up with your solicitor and facilitate the necessary steps, we are, Sir, very respectfully,
Yours very truly,
Per John Jackson Co.,
per A. G. Wilson."

POLICE PATROL CRUISER FOLLOWS ICE TO NORTH

The Fitzgerald Was One of the
Earliest Boats in Water North
of Smith

The "Fitzgerald" patrol boat of the Royal Canadian Mounted Police is in the water on the north side of the Smith strait, and will be one of the first craft to go down to the far north. Telegrams received Wednesday morning by Major J. J. Macdonald, commanding the Edmonton detachment of the R.C.M.P.,

The "Fitzgerald" was transported to the Royal Canadian Mounted Police by the Algonquin, and will be one of the first craft to go down to the far north. Telegrams received Wednesday morning by Major J. J. Macdonald, commanding the Edmonton detachment of the R.C.M.P.,

Major Jennings states that the "Fitzgerald" is a new patrol boat, long truce under the command of Staff Sergeant Clay, who will follow the ice from the Great Slave, and will be one of the first vessels to reach the far north.

BOARD OF TRADE STILL WORKING FOR 1,000 MEMBERSHIP

Although the Board of Trade membership campaign which has been in operation for the past few days has not yet reached a great deal of success and has resulted in 375 new members being brought into the fold of Edmonton's mercantile and business organization, no more is to be left untaken during the next few days to win up the membership drive in a blaze of glory.

Mr. H. Chauvin and Charles McManus have been given full authority to make every member of the Western Canada Fire Insurance Association, with the idea of bringing them into the insurance section of the board. Members of the campaign who have not been as active as they might have been during the past few days will also be urged to get out and do something.

Henry Hoche and Mr. W. Frey are expected to make return drives before the expiration of the week and their aim is to surpass the record established by Captain Blum whose men secured forty new members and renewed.

J. B. Joel's Chestnut Humourist Is Winner of the Classic Derby; Vast Crowds Witness Big Event

Winner Has Had Record of Successful Events Last Year
and This—Lord Astor's Craig an Eran Was in Second
Place and Lemmona in Third Position.

An Improved Car —A New Price—

NOW \$985.00

And it's an even better Overland!

People are beginning to realize what a wonderful car the new Overland really is, for owners all over Canada are reporting 25 to 30, some 35, miles to the gallon of gasoline and 10,000 to 14,000 miles on a single set of tires—moreover they are enthusiastic over its easy-riding, its sturdiness and power.

And all this round efficiency has been further increased by many refinements. You get a five-passenger automobile complete from self-starter to extra tire carrier. You get:

A perfected four-cylinder engine—protected, yet accessible; simply constructed, yet powerful—giving you assurance to tackle any hill, or any road, mud, sand or snow.

Triple Spring, that provide 134-inch springbase—making you ride easy and at the same time saving mechanism as well as passengers from road shocks.

Hundred-inch wheelbase, combining economy with those riding qualities, and enabling you to turn a complete circle in 32-feet—a distinct advantage on narrow streets or in congested parking areas.

Transmission of standard sliding gear type, with three speeds forward and one reverse.

Two separate rod-controlled sets of brakes; internal and external, operating direct on rear wheels.

Spiral-cut drive gear and pinion, ensuring quietness.

Auto-Lite starting and lighting system, speedometer, ventilating windshield, one-man top and side curtains.

Finishing lines, pressed steel body, hood and full-crown fenders, black enamel finish—all contributing to the attractive appearance of this high-quality car.

Insist on getting the kind of economy and performance Overland will give you! See your Overland dealer at once for a demonstration.

Saturday
at 1 p.m.

50 Trimmed Hats at \$3.95 each

A Select Little Grouping of Smart Styles Regularly Up to \$15.00

No two are alike! There is the magnet that will draw the well-dressed woman of one of these distinctive hats. Some are hand made of novelty straw, satin, silk, batavia cloth and chic combinations. Then there are blocked shapes of lace, tassel and milan hemp. The trimmings — too profuse, too pretty for words.

And whether you want a large hat or a small one, you can get it here Thursday at just \$3.95.

Does Every Man Know About Our Tweed Raincoats at \$9.50?

It is possible that a few do not. Few men do not need department store advertising.

But they should know that we are offering (and have large stocks of) the grade-tweed raincoats at \$9.50, which formerly sold at from about \$30.00 to \$35.00.

New, should all you wives and mothers and sisters tell your men folk about this!

They're fine coats. Fine fabrics, with dependable rubberized backing. Fine tailoring. Fine finish.

For young men and old. Bargains! Investments!

least weak and watery and cannot be stored many months, but have been in the price of this spring demand for a week or more. It is expected that the price of the market today, selling of health river to the extent of about 200,000, will be a decline of two points to 90 with a later recovery to 95. There was not a board last sale of the market.

Dealers are paying from 18 to 20¢ per dozen for receipt and from 20¢ to 25¢ per dozen on grades from 20¢ to 25¢ per dozen.

There is some demand for potatoes of good quality, but most of the farmers too busy with spring work to deliver the potatoes and only small quantities are being shipped. Dealers are paying 15¢ to 16¢ per bushel.

The supply of hay is increasing and has been in fairly large quantities since the middle of May. Dealers are paying from 12¢ to 15¢ per ton. Green feed has been selling at 12¢ to 15¢ per ton.

On the large quantity of surplus milk, the market of cheese is expected to be very heavy. There is some demand for cheese in the coast markets and fairly large quantities have been going to the Eastern markets. Cheese is selling at 15¢ per pound.

The demand for dairy butter is increasing and has been in fairly large quantities since the middle of May. Dealers are paying from 12¢ to 15¢ per pound. Green feed has been selling at 12¢ to 15¢ per ton.
